Determination of the required number of licenses
It is the aim of these rules to reflect the different benefit of small medical practices and larger institutions with the level of the fee. The following rules have proved to be fair:

Situation	**Licenses**
per facility	minimum 1
per perimeter	minimum 1
1 or 2 eye specialist(s)	minimum 1
3 to 5 eye specialists	minimum 2
6 to 8 eye specialists	minimum 3
9 to 11 eye specialists	minimum 4
12 to 14 eye specialists	minimum 5
more than 14 eye specialists	minimum 6
Eye specialists are ophthalmologists ore optometrists working part time or full time	

The basis for calculation is the total count in the entire institution, a partial licensing is not possible even if only a partial use is intended.

The definition of the required number of licenses is reserved to the PeriData Software GmbH, as well as the right to deviate from the above-mentioned principle
